<b>2082</b>	7/8" (22 mm)		20

10' (3 m) Lengths • **Product ships unassembled.**

### Application:

Used as an expansion joint while providing a reveal. Designed to expand and contract where severe movement is anticipated. When used in vertical application, the lath should be split before installing the slip joint. When used in a horizontal plane, the same procedure should be used before placing the female side on top.

### Specification:

Slip Joint will be Plastic Components, Inc. # \_\_\_\_\_. All exterior accessories shall conform to ASTM standards D1784, C1063 and D4216. All products shall be third party tested to meet ASTM standard D4216 and be Canadian Code Compliant. They shall be used where specified by the architect and installed per industry standards.
