MANUFACTURED BY PLASTIC COMPONENTS

Gutter Guard Pro is manufactured by Plastic Components, Inc. Since 1969, Plastic Components has been supplying plastic trims to the construction industry that meet or exceed the high standards set by ASTM and Warnock-Hersey. Tensile and flexural strength, dimensional stability and resistance to exterior weather conditions are just a few of the standards that are reviewed and judged by these testing agencies.

WARRANTY

Plastic Components, Inc. warrants that GutterGuard Pro™, as manufactured by Plastic Components, Inc., when properly applied and used in and for the manner which it is manufactured in accordance with ASTM standards D1784-97 shall be free from defects and will perform as stated. Plastic Components, Inc. sole responsibility under this warranty shall be for replacement of material only and excluding any labor or installation cost, and for material that is manufactured by Plastic Components, Inc. which has been deemed defective through manufacturing only, and not product which has been damaged during installation or improperly installed.

Tested and Listed by Warnock-Hersey to assure quality and performance.

**The BEST WAY to control
Gutter Clutter™**

GutterGuardPRO™

**Durable, One-piece Construction
UV Resistant for Long Outdoor Life**

No More Gutter Clutter!™

Gutter Guard has **DOUBLE** the number of holes of other gutter protection products to allow more water to flow through.

Angled design and drip edge on front prevent buildup of debris and "tiger striping" on gutters

PVC Gutter Guard Pro protects your gutters!

Prevents Debris and leaf build-up in gutters. If you are frustrated from constantly climbing ladders to unclog your gutters, here is the solution! Gutter Guard Pro is designed so that the wind and rain do the cleaning for you.

Durable and affordable one-piece construction. The simple but effective design of Gutter Guard Pro offers a sturdy and cost effective solution in a market where complex and expensive seems to be the norm.

UV tested for long outdoor life. You can be assured of the UV resistance and durability of this product. Gutter Guard Pro is listed by Warnock-Hersey and ASTM as a product which meets or exceeds their standards in the areas of tensile and flexural strength, dimensional stability and resistance to exterior weather conditions.

Drip Edge prevents streaks on gutters face. Gutter Guard Pro's unique drip edge technology helps to prevent the dirty

"tiger striping" which commonly occurs on the face of the gutter. Deflecting dirt and debris away from the face of the gutter helps keep your home looking like new.

Fits most 5" gutter systems. Gutter Guard Pro has been designed to rest on the mounting hangers of any 5-inch continuous gutter system. This allows the system to function at a consistent angle independent of the roof pitch and gutter slope. Gutter Guard Pro can also be installed along with any type of roofing materials.

No fasteners, Snap-on/Snap-off design. Unlike other products, the unique lock-in design of Gutter Guard Pro requires no fasteners. This means that in the event that your gutters require maintenance, the system can quickly and easily be removed and reinstalled without hassle.

Gutter Guard Pro snaps in at a consistent angle – no matter what the roof pitch or gutter slope is.

Available in three colors. Gutter Guard Pro is available in white, tan and dark brown to accommodate and blend in with the majority of your gutter color options.

Avoid Gutter Clutter and get the best in Protection!
