

Then and Now...

FUHGEDDABOUTIT

Looking for extra profits when installing exterior insulated wall systems?

Look inside this box.

The only line of accessories for insulated walls.

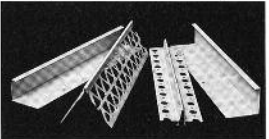

All over America, exterior insulation is one of the hottest new energy savings concepts for homes and businesses. And all over America, contractors have found that Vinyl Tech accessories help them do the job faster, better, with fewer problems, and with more profits.

Saves you in labor costs, saves your customers in energy costs.

Vinyl Tech insulated wall accessories saves you the high labor costs of wrapping and finishing the board ends. And since PVC gives you better insulation than metal, your customers end up with a more energy-efficient installation (which is a good selling point on every bid).

One toll-free call, and we can ship within 24 hours.

We can provide you with everything you need—including corner beads, expansion joints, casing beads and weep beads for all exterior insulation systems.

VinylTech

Plastic Components Inc., 7570 N.W. 79th Street, Miami, Florida 33166

With one call, we'll have a box of sample products and catalog in the mail to you. Just call, toll free 800-327-7077. (In Florida call collect, 305-885-0561.)
