Ultra-Tech™ Gun-Grade Urethane Modified Acrylic Elastomeric Sealant

Ultra-Tech™ elastomeric sealant is the answer to reliable caulking of butt joints, intersections, ends and corners in projects that use Plastic Components' PVC accessories.

This one-component, high-performance gun-grade sealant forms a flexible, airtight and water-resistant seal against moisture, and other environmental conditions. Durable Ultra-Tech offers superior adhesion and flexibility – with 800% elongation.

- Internally plasticized – no 'shiners' or paint discoloration
- Superior bonding to PVC and most other surfaces, including masonry, brick, concrete, wood, metal, marble, glass and ceramic tile
- Non-yellowing white sealant
- Mildew-resistant, reduces dirt pickup
- Paintable, soap and water cleanup
- Interior/exterior use
