Application:

Plastic Components' Siding Step Bead is designed to simulate the look of rigid cementitious siding with stucco alone. Features include a double ground (which functions as a screed between adjoining bands) and striated flanges that improve the bond with stucco.

Specification:

Siding Step Bead shall be Plastic Components, Inc. #_____. All exterior trim shall be of PVC material that meets ASTM D1784, C926, C1063, C1861, and D4216, shall be third party tested and be Canadian code compliant. They shall be used where specified by the design authority and installed per industry standards.
