2081	3/4" (19 mm)		25
2082	7/8" (22 mm)		20

10' (3 m) Lengths • **Product ships unassembled.**

Application:

Used as an expansion joint while providing a reveal. Designed to expand and contract where severe movement is anticipated. When used in vertical application, the lath should be split before installing the slip joint. When used in a horizontal plane, the same procedure should be used before placing the female side on top.

Specification:

Slip Joint will be Plastic Components, Inc. # _____. All exterior trim shall be of PVC material that meets ASTM D1784, C926, C1063, C1861, and D4216, shall be third party tested and be Canadian code compliant. They shall be used where specified by the design authority and installed per industry standards.
