Low Profile, Recessed Electrical Box

Product Number	Dimensions/Description	Cover Color	Orientation	Pcs per Box
PCDBVS1C	IN BOX® one-piece Electrical Box with weatherproof-in-use cover for new siding applications.	Clear	Vertical	4
PCDBVS1W		White	Vertical	4

Patented - Arlington Industries, Inc.

Application:

Arlington Industries' IN BOX® for new siding is now available from Plastic Components! This one-piece, recessed electrical boxes save labor time, and because IN BOX® installs in the wall, you'll get a great-looking job too. The cover protrudes from the wall just enough for a neat, clean appearance. And IN BOX, for new siding, has flanges that cover the cut ends of siding.

- No gaskets required
- For all siding types
- Clear or paintable white cover
- UL/CSA Listed weatherproof while-in-use
- Meets NEC 2020 (National Electric Code) and CEC (Canadian Electric Code) 2015

Offers aesthetic value as a low profile, non-metallic electrical box that installs IN the wall. It accepts most single-gang wiring devices and uses standard indoor wall plates of a GFCI cover plate.

Specifications:

Non-metallic electrical box shall be Plastic Components Inc. InBox® for siding applications #_____. Made of UV rated, PVC material. UL and CSA Listed.
