Plastic Components

Florida-based **Plastic Components** is the originator and designer of many innovative trims, and since 1969, has manufactured quality plastic trims and accessories for the construction industry that solve problems created by standard metal.

PLASTIC COMPONENTS

Our nearly 700 line items include corner beads, control joints, vents, slip joints, reveals, and more for continuous insulation and exterior insulated finish systems (CI/EIFS), direct applied (DEFS), **stucco**, stone veneer and drywall.

From freezing cold to extreme heat, Plastic Components' PVC products deliver optimal results – good looks, easy handling, moisture management, reduced labor costs and superior field performance.

Our trims are tested and listed with Intertek Testing Services/Warnock Hersey to meet or exceed the strict standards set by ASTM.

Our non-rusting PVC continuous soffit vents allow air to move in and out of the attic, preventing moisture and heat build-up under the roof.

- **Optimal hole size for increased airflow, while keeping insects, pests out of attic**
- **10' (3 m) Lengths**
- **Meets ASTM standards D4216, D1784, C1861, C1063, C926**
